The Whigs of the United States, in Convention assembled, firmly adhering to the great conserva-tive republican principles by which they are con-trolled and governed, and now, as ever, relying upon the intelligence of the American people, with an abiding confidence in their capacity for selfgovernment and their continued devotion to the constitution and the Union, do proclaim the fol-lowing as the political sentiments and determina-tions for the establishment and maintenance of which their national organization as a party is

1. The government of the United States is of a limited character, and it is confined to the ex-ercise of powers expressly granted by the constitation, and such as may be necessary and proper for carrying the granted powers into full execu-tion; and that all powers not thus granted or necessarily implied are expressly reserved to the States, respectively, and to the people.

2. The State governments should be held se

cure in their reserved rights, and the general gov-ernment sustained in its constitutional powers, and the Union should be revered and watched ver as "the palladium of our liberties."

3. That, while struggling freedom everywhere enlists the warmest sympathy of the Whig party, we still adhere to the doctrines of the Father of s Country, as announced in his Farewell Adress, of keeping ourselves free from all entan-ing alliances with foreign countries, and of ever quitting our own to stand upon foreign ground. That our mission as a republic is not to ropagate our opinions, or impose on other counmies our form of government by artifice or force, but to teach by example, and show, by our success, moderation, and justice, the blessings of elf-government and the advantages of free in-

4. That where the people make and control the government, they should obey its constitution, laws, and creaties, as they would retain their selfrespect and the respect which they claim and will enforce from foreign powers.

5. Government should be conducted upon prin-

ciples of the strictest economy, and revenue sufficient for the expenses thereof, in time of peace, ports, and not from direct taxes; and in levying such duties, sound policy requires a just discrimi nation, and protection from fraud by specific duties when practicable, whereby suitable encouragement may be assured to American industry, equally to all classes and to all portions of the country.
6. The constitution vests in Congress the power

to open and repair harbors, and remove obstruc-tions from navigable rivers; and it is expedient that Congress should exercise that power, whenever such improvements are necessary for the common defence, or for the protection and facility of commerce with foreign nations or among the States: such improvements being, in every in-stance, national and general in their character.

7. The federal and State governments are parts of one system, alike necessary for the common prosperity, peace, and security, and ought to be regarded alike with a cordial, habitual, and immovable attachment. Respect for the authority of each, and acquiescence in the constitutional measures of each, are duties required by the plainest considerations of national, of State, and of individual welfare.

8. The series of acts of the 31st Congress com-

monly known as the Compromise or Adjustment (the act for the recovery of fugitives from labor included) are received and acquiesced in by the Whigs of the United States as a final settlement, in principle and substance, of the subjects to which they relate; and, so far as these acts are concerned, we will maintain them, and insist on their strict enforcement, until time and experience shall demonstrate the necessity of furher legislation, to guard against the evasion of the laws on the one hand, and the abuse of their powers on the other—not impairing their present WHITEHURST'S GALLERY OF PREMIUM DAefficiency to carry out the requirements of the constitution; and we deprecate all further agitation of the questions thus settled, as dangerous to our peace, and will discountenance all efforts to continue or renew such agitation, whenever, wherever, or however made; and we will main-tain this settlement as essential to the untionality of the Whig party and the integrity of the Union.

MACHINE FOR CRUSHING, GRINDING, AND

PULVERIZING.

Recently Patented in this Country and Europe Recently Patented in this Country and Europe. COCHRAN'S PLANOSPHERICAL QUARTZ CRUSHING AND PULYERIZING MAGENIES are now in daily operation for the inspection of the public, and will be submitted to any reasonable practical tests proposed by parties interested.

These machines, by their simplicity of construction, their durability, the undoubted principles upon which they operate, their effective operation and result, are justly entitled to the consideration of all parties engaged in grinding, crushing, and Pulverizing Quartz, Iron Ore, Zinc, Copper, and Lead Ores, and all other Ores or Mineral substances.

It is the peculiar feature of the economy of these machines that they are found capable of crushing and pulverizing into the finest powder any amount of Quartz or other earthy matter, in proportion to the amount of weight or power applied. The serthy matter is so completely ground and pulverized, that the Gold may be easily separated, and subjected to any process of smalgemention that may be necessary.

The muchines work and deliner wat or day, as may be tently and the control of control of the co

asary. The machines work and deliver wet or dry, as may be re

The machines work and deliver wet or dry, as may be required, and run with little friction, (being almost without machinery) requiring no lubricating; the principle upon which they operate precludes the possibility of their being put out of order; nor do they heat any material while being putverized. They are at once applicable for all purposes of grinding and pulverizing, from those required by the Drugist to those of the most extensive operations in California and Australia.

These machines are from two to twelve feet in diameter, with bails or spheres from three inches to five feet in diameter, each machine weighing from 250 pounds to 20 tons each, and are sold, with the right to use them, at from \$100 to \$5,000 each.

to \$5,000 each.

They can be worked by steam, water, horse or manual power, according to their size; and by changing the velocity and proportioning the weight on the top of the balls, any desired amount of power may be used, from that of a warn or horse powers.

any desired amount of power may be used, from that of a man or horse upward.

The proprietors of this invention solicit examination, and will prove by practical tests the vast superiority and economy of these machines over any other, for crushing, grinding, or pulverting, heretafore affered to the public.

These machines may be seen in operation at the foot of South Eighth Street, Williamsburgh, at the large Patent Block and Saw Factory of Messes. Burr, Waterman & Cogfirst street south of Peck Sip Ferry, every day, from 7 to 9 a.m., and from 4 to 6 p.m. For further particulars, apply to

The public of Cavering The Public of The Maryland and fifty pounds, is drawn by one horse, and gathers from ten to twelve acres per day. The fingent now in use. It takes the seed from the field with each and fifty pounds, is drawn by o KRAUSER'S PATENT CLOVER-SEED HAR-

CROSS KEYS, WASHINGTON TOWNSHIP, CAMDEN CO., N. J.,) Caoss KEYS, WASHINGTON TOWNSHIP, CAMDEN CO., N. J., September 4, 1851.

We, the undersigned, do certify that we have seen Mr. Kranser's Patent Clover Harvester in operation, and it has given perfect satisfaction. It has gathered many of, the farmers' clover in this neighborhood—it is all that Mr. Kran

ser and his bills represent it to be. The farmers have give one-half for gathering and threshing.

JAMES D. TIMBERMAN, JOSEPH DEWALD, WILLIAM P. GARWOOD, WM. C. NICHOLSON, JOHN F. COOK, JAMES B. COOK, JAMES COLLINS. JAMES BRYSON. CHARLES LEWIS. PETER H. JONES THOMAS TUMBLESON.

Lone-a-Comino, October 7, 1851.

This is to certify that Mr. G. J. Naylor has gathered clove off of a sixteen-acre field of mine, which has been pasture two months with ten head of cattle, and it produced six bushels and a half and one peck of seed. I gave him two thirds for gathering and cleaning. I think his machine i first-rate, and answers all the purpose that is intended.

NEHEMIAH NICHOLSON.

The following points out the profitable nature of the Harvester:

KRAUSER'S PATENT CLOVER-SEED HARVESTER. We have conversed with a number of Farmers, and they are of opinion that there are at least 3,000 acres in each town-

ship in Camden or Gloucester county, New Jersey. Admit-ting there are but 1,000, it is said that each acre will yield rom 1)4 to 3 bushels. Reducing it to a certainty of yielding out 1 bushel per acre, what will it cost to gather and three 000 acres?
This Harvester will gather 12 acres per day. At 8 acres per day, it will take 6 harvesters 26 days,

Sost of harvesting, &c., 1,000 acres...... Terms of gathering, on shares of one-half; which would leave from the above calculation in the hands of the gatherer 500 bushels. Selling it at \$5 per bushel would be \$2,500; deducting expenses, \$500, would leave a balance in the hands of the gatherer of \$2,000.

In a county where there are but 8 townships, deduct 3 and multiply the \$2,000 by 5 would be \$10,000.

We believe the above calculation to be indisputable. From the numerous farmers with whom we have consulted we

ous farmers with whom we have

culation.

Perhaps no invention offers greater inducements for Profitable investment than the Harvester. For an enterprising young man, of good business habits, a large sum money could without doubt be realized from the sale rights in the different States of the Union not yet dispose. By calling at this office, it can be demonstrated satisfations. torily that men of moderate capital could not choose a bette or more money-paying business.

Those who wish to see a model of this celebrated farming

implement, and the satisfactory manner in which it op-can do so by calling at E. WHEELER'S. an do so by calling at E. WHEELER'S, Opposite Browns' Hotel. N. B.—The subscriber has purchased the right for Mont can do so by calling at

Hampton's Vegetable Tincture! COME, LET US REASON TOGETHER. ORAL TESTIMONY.

THOUSANDS feel it a duty to talk to their afflicted friends of the benefit derived from HAMPTON'S VEGETABLE TINCTURE. From day to day we have given the certificates of cures performed on our best-known citizens, and still we have a perfect avalanche of letters pouring in upon us—all, all giving a weight of tastimony that must convince the most skeptical. All are invited to call and read for themselves. The letter below is from one of the first mercantile firms. To those who know them, it must carry conviction, and induce many sufferers to give this Tincture a trial:

PORT ROYAL, Va., July 27, 1852.

this Tincture a trial:

Port Royal, Va., July 27, 1852.

Mesers. Mortimer & Movebray: Gents: We have again to send an order for more of your truly wonderful Hampton's Vegetable Tincture. Since it was first tried it has sold without un effort, and we have not seen the first person who has not been greatly benefited by its use. A gentleman of our neighborhood was induced to try the "Tincture" for a violent palpitation of the heart. He had suffered so much from it that he said he had prayed for death. He had taken but three doses when he assured was he would not take five hundred dollars for the benefit he had derived, and that he should naver cease to remember us with rived, and that he should never cease to remember us with gratitude for calling his attention to so valuable a medicing Yours, truly, GRAY & PENDLETON.

The Whole World, Attention !- Hear him, ye sick and do likewise!!

and do likewise!!

Baltinor, Feb. 9, 1882.

Marra, Mortimer & Mowbray: Gentlemen: It is with real pleasure that I am able to attest to the general healing and curative powers of Dr. Hampton's Vegetable Tincture. Sometime during last November I was taken with a very bad and serious cough. I was advised to take Cod-Liver Oil, and did so; but getting no better, I was induced to try your Tincture. I got one bottle, and before I had used it all my cough left me. Permit me also to state that, for the last fifteen years, I have suffered very much from Acute Rheumatism and Vortigo, confining me at times to my bed. I am fully convinced that I owe my present good health to the use of the Tincture, and a kind Providence.

You are, my friends, at liberty to use this as you may think propers and believe me, yours, very respectfull.

N. B.—I can be seen at any timesat the Mayor's office.

N. B.—I can be seen at any timesat the Mayor's of

THE ALMOST MIRACULOUS CURES made by Hamp ton's Vegetable Tincture on our most respectable citi-zens—men well known and tried—we challenge the world to show anything on record in medicine to equal it. Many hundreds who have fell its healing powers bear the same testi

Mony.

Mesers. Mortimer & Movobray: Gents: Last September 1 was attacked with eryslpelas, from which a dreadful alear formed on my right leg. Getting betterof this, last November 1 took a deep cold, which led to what my physician told me was billous platrisy, which left me with a constant, deeply seated, and painful cough, having no rest day or night, and constantly throwing up from my lungs a thick matter. I became nuch emachated, growing weaker every day, and keeping my bed the greater part of the time. My friends thought I had the consumption, and at times I was also of the same opinion. At this stage of my disease, after having tried many and various remedies, without success, a friend advised me to try DR. HAMPTON'S VEGETABLE TINCTURE, and precured me a bottle, which I now pronounce the greatest medicine I ever took. Before I had taken half the contents of one bottle I felt much improved; and now, having taken but two bottes, my cough and pairs have enterly left me, and I am enabled to attend to business. I can truly say that, with the blessing of God, I have been restored to the heaith I now enjoy by the use of this most invaluable medicine.

Yours,

WESLEY ROCK,

Schroeder, near Saratoga street. BALTIMORE, July 6, 1852.

Truth stranger than Fiction!-None need despair !-A Lady's Testimony after thirty-eight years of suffering!

of suffering!

Were there not real virtue in this wonderful medicine, could it perform the astonishing cures made by it?

Normany of the Normany of age the 18th of this month; the attacks were at times seevere as to render me helpless; I have tired various remedies to vary little effect. Last October I was attacked in my shoulders, sides, back, and hips; I could not rest, day or night; I could not nove any part of my body without crying with pain; at this time I also tried many remedies, internal and external, without receiving any relief; I was at last advised to try HAMPTON'S VERETABLE TINCTURE; and as I continued taking it I felt strength coming into my beach and limbs, and my stomach strengthened and revived every way; I have taken five bottles, and am much better than I ever expected to be. I intend to use it whenever I need it, and would recommend it to the affilicted, believing it unequalled. Yours, ELIZABETH BAGWELL.

REV. VERNON ESKRIDGE, U. S. N. REV. VERNON ESKRIDGE, U. S. N.

Portshouth, (Va.,) Aug. 18, 1851.

Mr. J. E. Boush—Dear Sir: While I am in general opposed to Patent Medicines, candor compels me to state that I have great confidence in the virtues of Hampton's Vegetable Tincture. For several months past. I have used it in my family, and in Dyspepsia, loss of appetite, dizzlness, and general debility, with entire success. So far as my experience extends, therefore, I take pleasure in recommending it to the afflicted as a gafe and efficient remedy.

I am, respectfully, yours, VERNON ESKRIDGE, Chaplain in the U. S. Nsvy.

HAMPTON'S VEGETABLE TINCTURE, by its mild ac-tion on the Stomach, Liver, and the Kkineys will cure Dys-pepsia, Cough, Asthma, Bronchial and Lung Affections; Pains in the Back, Side, and Breast; Consumption, Scrofula, Rheumntisan, Gont, Neurnsigh, Fistula, Piles, Bowel Com-plaints, Worms, Nervous Debility—with all diseases arising from impure blood, and is the greatest Female Medicine ever known. er known. For Cholera Morbus, Cholle, Diarrhova, and all diseacident to the bowels in the summer season, it has

incident to the powers in the same count.

We ask the silicted to call on those having this wonderful article for sale and get pamphlets, graits.

NEW SEVENTH STREET BOOK-STORE.

HEW SEVENTH STREET BOOK-STORE.

CRAY & BALLANTYNE having secured commodious of and convenient premises in Seventh street, two doors above Odd Fellows Hall, (opposite the old stand of A Gray,) offer a new and beautiful assortment of Religious Books, selected with great care by one of the firm, to which they invite the attention of the Christian public.

They would also respectfully state, that having become the general agents in this city for the sale of the publications of Rousar Carrent & BROFIRDS, and of the METRODIST BOOK CONCERS, they will always have a complete supply of their respective publications on hand.

They will also keep a general assortment of the publications of the Preebyterian Board, American Tract Society, American Sunday School Union, &c.

Their assortment of JUNESHIX BOOKS, and Works suitable for Sunday School Libraries, will be very extensive.

The Depository of the Washington City Bible Society is transferred to their store. Near Bibles at 25 cents, and Testaments for 6½ cents.

It will be their ambition and pleasure to keep such an assortment of Religious Books as will entirely supply the increasing demand for this kind of literature.

They carneetly solicit the co-operation of Christian friends in the great and important work of widely circulating this class of publications, and thus counteracting, in some degree, the deleterious effects of the light and corrupt reading that is flooding the country to much a fearful extent.

In addition to their extensive assortment of Religious Books, which comprise all the best standard and miscellaneous works of that class, they will keep constantly on hand a great variety of valuable Historical, Miscellaneous, and Juvenile Works of unexceptionable character; Books of Sacred Music; Hymn Books, such as are used in all the different Churches; Bibles and Prayer Books, in every variety of binding, and at all price; Albums, Annuals, and beautiful Gift Books; splendid Family Bibles; and School Books of every kind in use, at the lowest prices.

A. GREEN, sep 3—

THOS. A. SCOTT.

Protection from Lightning.

THE undersigned, being the duly appointed Agent of Spratt's Electrican and Electro-Omeratlurguest Lordinana Anderson Manufactoray, Covington, Kentucky, begs to offer these superior Rods, of Spiral-twisted, Carbonized Annealed Iron, with Zine Protectors, and Electro-positive elements combined in their manufacture; thus rendering them equal to copper as conductors. They are in ten-feet lengths, with accurately-fitted brass-screw connecting joints, an entire new style of metallic (patented) attachments, for brick or frame buildings; also, glass isolaters, of a novel and ingenious construction, (patented.) forming a lock; the whole mounted with a solid platinum silver point, (patented.) twelve inches long, surrounded at the base with three angular negative magnets, which possess the power, to an extraordinary extent, of discharging the opposite elements of the most fearful thunderstorm, and embrace the entire perfection of science up to the present time; the whole constituting the most magnifecent and perfect allent conductor ever presented to the public.

Safety has not been compromised by affording these excellent rods at such low rates; the greatest attention has been given to their construction, so as to be readily attached. The astonishing power of the negative magnets, in discharging the air of its opposite elements, has been clearly demonstrated by the Electrometer, when unmagnetized points have shown but alight results, though placed under the same conditions. In fact, they gather and silently discharge electricity from the atmosphere when you would scarcely suspect any being present.

These improvements being secured by double letters patent, you are hereby cautioned against laying yourselves liable, by purchasing of those who are non authorized, or who are substituting inferior imitations. All agents duly appointed can show their certificates. Have good rods or none.

CHARLES W. HETDON, Protection from Lightning.

I do hereby certify that I have applied various powerful chemical re-agents to Spratt's Patent Points for Lightning-Rods, and that the results of these experiments convince me that they will resist the action of atmospheric causes, and thereby preserve the extremity sharp—a condition most essential to protection against lightning. The re-agents used in the above experiments were a solution of chloride of sodium, (common salt.) acetic acid, sulphuric acid, and hydrochloric acid. With the first, there was no action on the metal; with the several acids, there was very slight—a fact sufficient to show that atmospheric influences would have no sensible effect.

JOHN LECONTE, Prof. of Nat. Phil. et Chem. JOHN LECONTE, Prof. of Nat. Phil. et Chem University of Ga., October 8, 1850.

The Lightning Conductors of Mr. Spratt, offered to me, are well calculated to perform the office for which they are ntended. Yours, truly, Prof. ROBT. PETER.

LEXINGTON, KY., February 20, 1850. CHICAGO, Serving To., February 20, 1850.

CHICAGO, September 3, 1850.

This may certify that I have examined, somewhat critically, James Spratt's Patent Lightning Rods, and that I am of opinion that it is constructed on scientisc principles. For combining durability, cheapness, and efficacy, I deem it equal, and I think superior, to any other rod ever offered for my inspection.

Prof. JAS. V. Z. BLANEY.

for my inspection.

Prof. JAS. V. Z. BLANEY.

Augusta, (Ga.) November 11, 1850.

This will certify that I have examined the Lightning Rods, Metallic Points, and Isolating Attachments, manufactured by Mr. Spratt, and regard them as constructed in conformity to the general laws of the electric fluid; and the metallic compound constituting the Points, as promising, from the result of several tests to which they were submitted, to resist for years the action of those atmospheric causes most likely to corrode them.

A. MEANS, Prof. Phys. Sc., Emory College, Ga., and Prof. Chem. and Pharm., Medical College, Ga.

The Lightning Conductors put up by Mr. Henry M. Smith, of this city, on the plan of Mr. Spratt, appear to me to be

of this city, on the plan of Mr. Spratt, appear to me to be very well devised; and, in point of mechanical construction, very well devised; and, in point of mechanical construction, are the best I have ever seen.

It is to be hoped that the use of these Rods may become general, as an important auxiliary defence against a danger which must be regarded as of no ordinary magnitude, to shich all buildings are liable.

R. SILIMAN, Jr.,
